FOREWORD

Parts 1 and 2 of this document detail the aeronautical information services provided by States and are published in furtherance of Recommendation 27 of the First Session of the Aeronautical Information Services Division.

Part 1 provides essential data concerning the type of aeronautical information available from various States and how it may be obtained. The tabulations are supplemented by a map indicating the geographical area of responsibility of each service. Part 2 shows the current exchange of NOTAM between NOTAM offices.

Information on the availability of aeronautical charts is contained in Doc 7101 — *Aeronautical Chart Catalogue*.

On page 0-7, there appears a statement of the requirements of ICAO (both Headquarters and Regional Offices) for aeronautical information published by States. Documents equivalent to NOTAM, Aeronautical Information Publications or Aeronautical Information Circulars should be supplied in the same quantity as indicated for the equivalent document.

This document also contains, in Part 3, a listing of international airports, including those designated under Article 10 of the Convention on International Civil Aviation.

All tabulations are arranged alphabetically by State according to English spelling. For quick reference purposes an index of the name under which the information appears is provided.

AVANT-PROPOS

Les Parties 1 et 2 du présent document fournissent des renseignements détaillés sur les services d'information aéronautique assurés par les États; leur publication fait suite à la Recommandation 27 de la Première Session de la Division des services d'information aéronautique.

La Partie 1 de ce document fournit des données essentielles sur le type de renseignements aéronautiques publiés par les États et sur la façon de se les procurer. Les tableaux sont complétés par une carte indiquant les zones de responsabilité de chaque service. La Partie 2 montre la situation actuelle des échanges de NOTAM entre les bureaux NOTAM.

Des renseignements sur la disponibilité des cartes aéronautiques sont contenus dans le Doc 7101 — *Catalogue des cartes aéronautiques*.

Les informations aéronautiques publiées par les États et nécessaires à l'OACI sont indiquées à la page 0-7 (pour le siège et les bureaux régionaux). Les documents équivalant à des NOTAM, à des publications d'information aéronautique ou à des circulaires d'information aéronautique devraient être fournis dans les mêmes quantités que celles indiquées pour les documents correspondants.

Le document contient également, à la Partie 3, une liste des aéroports internationaux, y compris ceux désignés en vertu de l'article 10 de la Convention relative à l'aviation civile internationale.

Dans les tableaux les renseignements sont groupés par pays, et ceux-ci sont rangés dans l'ordre alphabétique anglais. Pour faciliter la consultation du document, un index permet de déterminer le nom sous lequel figurent les renseignements.

Toute erreur, omission ou anomalie relevée dans le présent document devrait être portée à l'attention du :

The tabulation lists international airports, together with a brief indication of the type of traffic accepted at each airport and the clearances provided. ("International airport: any airport designated by the Contracting State in whose territory it is situated as an airport of entry and departure for international air traffic, where the formalities incident to customs, immigration, public health, animal and plant quarantine and similar procedures are carried out." (Annex 9)). Most of the information has been obtained from the Aeronautical Information Publications (AIP) produced by States in accordance with Annex 15, 4.1.1. The AIP should be consulted in the planning of flight operations.
